VISUAL EQUIPMENT
Multimedia concept

A good multimedia concept saves valuable preparation and clearing away time, promotes mutual learning, and adds some action to your lessons. To ensure that you can get going right away, we have compiled a practical compact range for you.

- **Practical products**
- **Robust infrastructure**
- **All inclusive service**

### Board + interactive projector
- Extremely robust enamelled steel board which can be written on
- Interactive projector transforms the board into an interactive touch surface
- Best value for money

### Document camera
- For filming, taking photographs, documenting and bringing objects into focus
- Lightweight and mobile

### Audio system
- For even more sound
- Active or passive loudspeakers

### Interactive whiteboard + projector
- Sensitive multi-touch surface
- Optimum collaboration with several people

### Projection surface + projector
- Comprehensive spatial solution
- Lightweight and mobile
- Low costs

### Interactive screen
- Comprehensive spatial solution
- Sensitive multi-touch surface
- Fast and high-contrast

### 100% interactive

Digital media perfectly complement your lessons. Promote media skills and project the results of work for everyone to see on the board. Work on exciting topics in a group, use tablets to give feedback, vote on questions that are asked, compete to solve tasks, and much, much more.
Quickboard 3

Our Quickboard 3 pylon board combines the best of 2 worlds in an ingenious way. Use the interactive surface in the lowest position especially for small students. If necessary a classic board surface can be swivelled safely and easily in front of it.

Patented swivel mechanism
Unique operating comfort
Mechanical swivel protection

Special features

- Ergonomically optimised with board surface able to be tilted back, as a result ideal operation of the interactive whiteboard even for small students
- Smooth running board mechanism due to parallelogram guidance with gas pressure springs
- High standard of safety with mechanical swivel protection of both board surfaces
- Comfortable height adjustment with low-noise ball bearings and limit stops buffered with steel springs above and below
- Long-lasting use due to board surfaces edged and sealed permanently elastic all-round with aluminium profile and round safety corners, without screws

Ensure the correct pylon height. Since the projector protrudes 15 cm over the board system, the Quickboard 3 requires the following room heights:

Room height ≥ 3050 mm:
Pylon height = 2850 mm,
Board height area 1 = 1000 mm
Room height 2850 - 3049 mm:
Pylon height = 2650 mm,
Board height area 1 = 800 mm

## Colour lounge

### Surfaces (TA01)

- Blue
- Green
- Red

## Interactive whiteboard

### Promethean ActiveBoard
- AB Touch 10
- Includes interactive software
- ActiveInspire, includes 2 pens
- W/H = 1973/1260 mm

### Smart Board
- SBM 685
- Smart Board SBX 885
- Includes interactive SMART Software, incl. 2 pens
- W/H = 1994/1295 mm

### Epson EB-675W
- Picture diagonal: 60 - 100"
- WXGA 1280x800 (16:10)
- Light output 3200 Lumen
- Includes 2 interactive pens
- Integrated loudspeakers 16 W

### Epson EB-685Wi
- Picture diagonal: 60 - 100"
- WXGA 1280x800 (16:10)
- Light output 3500 Lumen
- Includes 2 interactive pens
- Integrated loudspeakers 16 W

## Interactive projector (or projector)

### Epson EB-675Wi
- Picture diagonal: 60 - 100"
- WXGA 1280x800 (16:10)
- Light output 3200 Lumen
- Includes 2 interactive pens
- Smart Software, integrated loudspeakers 16 W

### Epson EB-685Wi
- Picture diagonal: 60 - 100"
- WXGA 1280x800 (16:10)
- Light output 3500 Lumen
- Includes 2 interactive pens
- Smart Software, integrated loudspeakers 16 W

### Epson EB-695Wi
- Picture diagonal: 60 - 100"
- WXGA 1280x800 (16:10)
- Light output 3500 Lumen
- Finger-touch function
- Includes 2 pens, Smart Software, integrated loudspeakers 16 W

## Options

- Cable extension
- USB Extender
- Lining area 1: LI01-09
- Sponge tray: 1 item (on the wall)
- Installation wall: solid wall / lightweight construction wall

## Dimensions

- Depending on version:
  - Pylon height = 2850 / 2650 mm
  - Board height area 1: 1000 / 800 mm
  - Surface area 1: TA01
  - Board area 2: 2x AB Touch 10 / SBM 685 / SBX 885 / enamelled steel white
  - Projector area 2: EB-675W / 685W / 675Wi / 685Wi / 695Wi

- Model 16452

## Info

- Enamelled steel white
- Board surface with allround aluminium profile and concealed suspension, magnetic, can be written on with markers
- W/H = 2000/1550 mm

- Optional sponge tray for wall installation (17100)
FlexLearn wall

Transform your walls into large-scale creative surfaces. The FlexLearn wall is a whole 1.50 m tall and up to 6 m in length. Combined with an ultra short-distance projector, the enamelled steel surface even becomes an interactive multi-touch surface.

Special features

› Wide range of uses due to 9 available widths and extensive options
› Possibility for interactive use through the combination with matching ultra-short-distance projector
› Elegant look with indented subframe for routing cables or attaching indirect lighting

Robust enamelled steel surface
Can be written on and is magnetic
Interactive multi-touch surface

Creative work

Let your imagination run wild. Write on the FlexLearn wall using whiteboard markers in the completely traditional way, or attach the results of group work directly to the surface using the magnetic accessories. When required, simply switch on the interactive projector as well and work with the learning teams in a multimedia way.

Stage the FlexLearn wall in a special way by colouring the surface behind it. Integrate indirect lighting and make the creative wall shine.

So that the FlexLearn wall functions smoothly, we include high quality cable sets with it. Connect the HDMI or VGA cable, as well as the USB cable (necessary for interactivity) to your PC – then you are ready to operate all contents/programs on your PC at the touch of a finger or pen on the board.

HDMI: Video + Audio transmission
VGA: Video transmission
USB: Interactivity

Interactive screen

Our new interactive screens transform your classroom into a collaborative learning centre, where up to 10 pupils can exchange ideas simultaneously, develop solutions to problems as a team, as well as edit images and digital content. Experience razor-sharp picture quality in almost all light conditions.

Colour lounge

- Long useful life with a 5 or 7 year display guarantee unique in the market
- Collaborative learning with 20-point Multi-Touch and numerous software tools, such as Prowise ProConnect, Presenter, Reflect, ProNote, ProQuiz
- High quality of sound through integrated Soundbar
- Independent automatic calibration
- Superior quality with up to 10 times fewer error rates than with other touchscreens

Special features

- Super quality with up to 10 times fewer error rates than with other touchscreens
- 100% interactive
- Superb Brightness and Color Reproduction
- High quality of sound through integrated Soundbar
- Independent automatic calibration
- Superior quality with up to 10 times fewer error rates than with other touchscreens

100% interactive

Install the free software Prowise "Pro Connect" on smartphones, tablets, notebooks or PCs, and interact with the interactive screen wirelessly or using the fixed network. It couldn't be easier for you to exchange information, provide feedback, vote on questions that are asked, compile to solve tasks, and much, much more.

PC module

- Intel® Core™ i5-6400
- 128 GB SSD Sata 3.0
- 2 x WLAN antennas, 24/5 GHz and 5 GHz and Bluetooth 4.2
- Warranty: 5 years

Cable set

- HDMI + VGA + audio jack + USB
- 4K
- 5 m, 10 m, 15 m
Interactive whiteboard + projector

Enhance your lesson interactively. With intelligent interactive whiteboards, the right educational software and the incorporation of interactive media, you encourage the attentiveness of your pupils and collaborative learning. Rotate, zoom and scroll using intuitive touch gestures.

Document cameras

A picture says more than a thousand words – document cameras are the interactive all-rounders in lessons. No matter what you put in front of the lens of the camera, it is transferred to the large board without delay, or immediately saved as an image, sound or video. This makes work a whole lot of fun.

Your advantages

- You work with familiar tools (pens, paper), simply continue using your existing OHP slides, discuss texts from books, daily newspapers or encyclopedias
- You display all sorts of three-dimensional objects. The zoom and pan function makes even the smallest details visible
- Your pupils present homework or the results of group work
- Bright LED light enables the optimum level of illumination even in darkened rooms
- You demonstrate physics or chemistry experiments while filming the action and transfer the video to the board for everyone to see, or let the entire class look through your microscope
- Large recording range up to A3 for a complete view of maps, large books and experiments, for example
- You record your lessons on commercial storage devices, also with sound
- Easy to use – with and without a computer, automatic detection as webcam

Interactive all-rounder

Document cameras are the modern-day alternatives to the overhead projector. Simply attach the all-rounder to an existing projector or to an interactive board and transfer images, videos or time-lapse recordings.

Board systems

He who writes, remains. A classic board surface is needed in every classroom. Note your ideas spontaneously with chalk or whiteboard marker on the respective board surface. The Hohenloher board systems are designed particularly robust and ensure for long-lasting pleasure in daily use.

Special features

- Long-lasting use due to board surface edged and sealed permanently elastic all-round with aluminium profile and round safety corners, without screws
- Elegant look with natural anodised aluminium profile and concealed suspension
- High level of torsional rigidity due to lightweight sandwich design and non-corrosive tensioning panel bonded over the entire surface at the back

* These models are not available with cork- or fabric upholstery (TA02)
Pylon board systems

That runs indeed like a well-oiled machine. The maintenance-free precision mechanism of the Hohenloher pylon construction ensures for permanently comfortable and low-noise operation. The high-quality technology always provides the right stability for writing on and holds the respective board position all by itself.

### Special features

- Comfortable and maintenance-free height adjustment with low-noise ball bearings and limit stops buffered with steel springs above and below
- Long-lasting use with board surface edged and sealed permanently elastic all-round with aluminum profile and round safety corners, without screws
- Elegant look with natural anodised aluminium profile and suspension controlled in the pylons
- High level of torsional rigidity due to lightweight sandwich design and non-corrosive tensioning panel bonded over the entire surface at the back

### Equipment

- Chalk tray
- Sponge tray
- Dirt collection channel
- Photo rail

### Info

The wall + floor mounted version is only possible, if there is no underfloor heating present. Select the appropriate wall spacer, if skirting boards or installation lines are in the way.

### Colour lounge

Surfaces (TA01)
Learning spaces

Learning is multi-faceted. The clever display panels from Hohenloher create zones in the classroom and provide mobile presentation and work areas. When not in use, they are rolled into a corner as quick as a flash and pushed together to save space.

Colour lounge

For creating zones and working creatively
+ Can be written on and is magnetic
+ Adjustable feet which can be reattached

Simple attachment of the adjustable feet

Quick rotation of the board surface for various applications

Simply clever

The magnetic accessories from Hohenloher stick everywhere. Whether a pin board, whiteboard, equipment box or pencil cup – everything can be positioned anywhere you like on boards, organisational panels, on the table or on the floor. And when you swap places, simply take it along with you.

# Acoustic felt

Our latest material development makes dreams come true. The acoustic felt panels improve the acoustics of the room, transform surfaces into creative walls that can have objects pinned to them, are highly robust, environmentally friendly and look great. Get going and start covering your walls, cabinets, doors, glass surfaces and much, much more.

## Outstanding effect

Our acoustic felt dramatically improves the acoustics of the room. The powerful 12 mm-thick pack not only looks good, it also effectively diverts any impinging noises to the inside of the material. That dampens the noise level and promises concentrated work.

## An acoustic marvel

Acoustic felt is a highly effective sound absorber. Thanks to the unique molecular operating principle, the impinging noise is effectively diverted within the material. This ensures the best values when measuring the acoustics.

## Pin board

Pinning things up has never been so much fun. We have designed the structure and density of the material in such a way that the pins hold perfectly.

## The material

Acoustic felt is ideal for long-term use under the toughest conditions. The solid-coloured, 12 mm-thick 3D polyester fabric is not only lightweight, it is also particularly scratch-proof and dirt-repellent.

## Pin board

Pinning things up has never been so much fun. We have designed the structure and density of the material in such a way that the pins hold perfectly.

## Friend of the environment

Our acoustic felt is odourless and is made 100% from recyclable polyester fabric. You can't get any better.

## Joy

Acoustic felt allows your imagination to run wild. Use it to design large-format wall surfaces and fix these to cabinet panels or to furniture.

Periodic tables

Foldable Periodic Table Board

Description: Wall-mounted foldable board acc. Köhler und Fischer, printed periodic table of the elements, 4 display options: Long periodic table with all elements, main groups, main groups with lanthanoids and actinides, main- and subgroups.

Dimensions:
- Folded: W/H/D = 1750/1200/90 mm
- Opened: W/H/D = 4200/1200/50 mm

Model 9951

Special features:
- Simultaneously main groups and long periodic table, in the folded state only main groups visible
- Each period in one row, no confusing displacements and arrows, simple and clear
- Element sequence according to increasing atomic number, chemically related elements one below the other
- When folding open the right wing, subgroup elements appear at the correct place between II. and III. Main-group
- When folding open the left wing, the rare lanthanoids and actinides are visible at the right place
- Progressive occupancy of the electron shells represented by colours, one colour for each shell, a variety of boxes and tiny numbers omitted
- Colour indicates, in which shell the last electron is incorporated
- s-,p-,d-,f- subshell and electron configuration can be read from a common footer
- Exceptions in the electron filling can be entered yourself
- Large symbols and numbers, as a result they can be easily read from every place in the class
- The wings can be folded over windows, doors or around corners, this system can also be attached behind wall boards, in this case wall-mounted sliding boards with a clear depth of 120 mm should then be included in the planning, suitable for all types of schools

Folded: W/H/D = 1750/1200/90 mm
Opened: W/H/D = 4200/1200/50 mm

Model 9951

Periodic Table Wall Card

Description: Wall card periodic table of the elements with electrical negativity values, covered with linen, with wooden rods, suspension cord

Dimensions: W/H = 2000/1500 mm

Model 9952

Visual equipment
Display cabinets

A glittering debut for your exhibits. Our display cabinet series captivates with filigree, rounded anodised aluminium frame profiles. The toughened ESG safety glass glazing as well a high-quality cylinder lock ensure the necessary safety and security during the school routine.
